Django Developer

Highly motivated and aspiring BCA candidate with a solid understanding of Python, Django, and frontend development principles. Passionate about collaborative coding and clean architecture. Eager to leverage technical expertise in a professional environment while contributing to innovative projects.

EDUCATION

Bachelor in Computer Applications

Himalaya College of Engineering • Lalitpur

PROJECTS

Portfolio Website (WIP) • 01/2025 - Present

A dynamic, self-designed portfolio website with admin-controlled content management.

Noteapp • 12/2025 - 12/2025

A note-taking web application designed for organizing tasks and ideas.

CiteCat (Plagiarism Checker) • 03/2024 - 11/2025

Developed a Django-based web app to detect content similarity using Python's PyTorch library. Integrated user authentication and real-time reporting.

PDF-Annotator • 09/2024 - 11/2025

Worked on a PDF annotation tool with Django and JavaScript, enabling users to highlight, comment, and save edits.

JoyMart/Storefront • 08/2022 - 09/2025

Designed e-commerce platforms with payment gateway (E-sewa), cart functionality, and admin dashboards.

SKILLS

Backend: Django, Python
